BABY CUCINA

mod. **FO600**▶ **Piccola da sembrare un gioco.**

Si chiama non a caso Baby Cucina questa praticissima combinazione di forno a gas e fornello a due fuochi con valvola di sicurezza proposta dalla PARKER SRL.

▶ **Petite à sembler un jouet**

Elle s'appelle, pas par hasard, petite cuisinière cette très pratique combinaison de four à gaz et de réchaud à deux feux avec soupape de sûreté, la proposition de PARKER SRL.

▶ **As small as a toy**

Baby Cooker is an extremely practical gas oven / 2 burners with safety-valve miniature stove designed by PARKER SRL.

▶ **Klein eines Spielzeug zu scheinen**

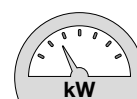

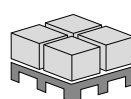

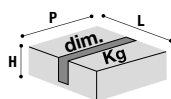

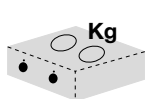

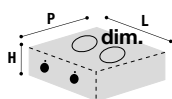

Es ist bekannt, nicht aus Zufall, klein Herd diese praktische Zusammenstellung vom Gasofen und 2 Flammenkocher mit Zündsicherung, ein Vorschlag vom PARKER SRL.

▶ **Pequeña y parecida a un juguete**

Se llama Baby Cucina la practiquísima combinación de horno a gas y cocina de dos fuegos con válvula de seguridad propuesta por la empresa PARKER SRL.

- ▶ Il forno ha una capacità di 19 litri, è molto sicuro e permette di realizzare manicaretti in tempi brevi e soprattutto in spazi ridotti. Baby Cucina è ideale per campeggi, per seconde case e laddove il problema dello spazio è abbastanza sentito, ma non si vuole trascurare la qualità e l'efficienza.
- ▶ Le four a une capacité de 19 litres, il est très sûr et permet de réaliser bons petits plats en temps brefs et surtout en espaces réduits. Petite Cuisinière est idéale pour les campings, pour les secondes maisons et où le problème de l'espace est assez senti, mais on ne veut pas négliger la qualité et l'efficacité.
- ▶ Its 19 litre oven allows you to cook quickly and safely even where space is very limited. Baby Cooker is the ideal choice for camping, holiday homes and wherever quality and efficiency take priority over space.
- ▶ Der Ofen hat eine Kapazität von 19 Litern, er ist viel sicher und erlaubt Leckerbissen in kurze Zeit durchzuführen und vor allem in Kurzräumen. Klein Herd ist ideal für Campings, für zweite Häuser und wo das Problem des Raums ist genug gefühlt, aber will man nicht die Qualität und die Leistungsfähigkeit unterlassen.
- ▶ El horno tiene una capacidad de 19 litros. Es muy seguro y permite realizar delicias para el paladar en poco tiempo y sobretodo en espacios reducidos. Baby Cucina es ideal para el camping, segundas residencias y salvando el problema del espacio con bastante sentido, sin dejar de lado la calidad y efectividad.

KIT MAESTRO

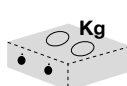

Cartucce compatibili
Compatible gas cartridges

- ▶ Con l'adattatore Kit Maestro, potrete collegare il Vostro fornello o barbecue alle cartucce gas con attacco filettato. La scocca in acciaio inox 304 garantisce protezione e isolamento alle Vostre cariche di gas. Un utile accessorio per il Vostro fornello o barbecue da campeggio e nautico. Per avere sempre con voi "a portata di mano" una carica in più.
- ▶ Avec l'adaptateur Kit Maestro, vous pouvez connecter votre réchaud ou barbecue aux cartouches de gaz avec raccord fileté. Le corps en acier inoxydable 304 garantit la protection et l'isolation de vos recharges de gaz. Un accessoire utile pour votre réchaud ou barbecue de camping et nautique. Toujours une recharge "à portée de main".
- ▶ With the Kit Maestro adapter, you can connect your gas stove or Barbecue to gas cartridges with a threaded connection. The 304 stainless steel body guarantees protection and insulation to your gas refills. A useful accessory for your camping or nautical stove or barbecue. To always have an extra charge with you "at hand".
- ▶ Mit dem Kit Maestro, können Sie Ihren Kocher oder Grill an die Gaskartuschen mit Gewindeanschluss verbinden. Das Gehäuse aus 304 rostfreiem Stahl garantiert Schutz und Isolierung für Ihre Gasnachfüllungen. Ein nützliches Zubehör für Ihren Camping und Bootskocher oder Grill. Um immer eine zusätzliche Aufladung "bei sich" zu haben.
- ▶ Con el adaptador Kit Maestro, puede conectar su hornillo o barbacoa a los cartuchos de gas con conexión roscada. La carcasa en acero inoxidable 304 garantiza protección y aislamiento a sus cartuchos de gas. Es un accesorio útil para su hornillo o barbacoa de camping y náutico, perfecto para tener siempre con ustedes "a mano" una carga de más.

MINI BARBECUE

mod. **SOLE**mod. **SOLEACC**

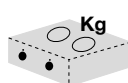

- È un barbecue d'appoggio a cottura radiante, funzionante a gas butano o propano, senza l'ausilio di pietra lavica o ollare, né di piastra in ghisa. Non necessita di montaggio, in quanto è già pronto per l'utilizzo. I sughi vengono raccolti in una vaschetta smaltata estraibile, che con l'aggiunta di acqua evita gli odori della cottura.
- Il s'agit d'un barbecue de cuisson par rayonnement qui fonctionne au gaz butane ou propane sans avoir besoin de pierre de lave ou ollaire, ni de plaque en fonte. Il ne nécessite pas de montage car il est prêt à l'emploi. Le jus de cuisson tombe dans un bac émaillé amovible qui, en ajoutant de l'eau, permet d'éviter la formation d'odeurs durant la cuisson.
- It is a radiant cooking barbecue that runs on butane or propane gas without the aid of lava or soapstone or a cast iron plate. It does not require any assembly as it is ready to use. Cooking juices are kept in a enamelled and extractable tray, in which you can add water to prevent cooking smells.
- Dieser, auf Ständer aufzustellende Strahlungsgrill wird mit Butan oder Propangas, ohne Hilfe des Lava- oder Topfgestein oder Gusseisenplatte betrieben. Es muss nicht zusammengebaut werden, da es sofort einsatzbereit ist. Die Garsäfte werden in einem herausnehmbaren emaillierten Behälter gesammelt, der unter Zugabe von Wasser die Geruchsbildung während des Gasvorgangs verhindert.
- Es una barbacoa de apoyo a cocción radiante que funciona con gas butano o propano sin necesidad de piedra volcánica o plancha de hierro fundido. No necesita de montaje, es ya pronto para el uso. Los residuos caen en una bandeja esmaltada que con adición de agua evita los olores de la cocción.

GRIGLIA-BISTECCHIERA

mod. TURN GRILL 60

► **Griglia-Bistecchiera rotante, brevettata, per caminetti d'interno e barbecue d'esterno.**

Realizzata con doppia griglia all'interno della quale sono trattenute le vivande da cuocere.

Il particolare meccanismo a leva consente una facile rovesciabilità e permette la cottura su ambo i lati senza alcuno sforzo fisico e senza pericolo di scottature.

È dotata di un particolare vitone che, premendo le due griglie, fa sì che il cibo non fuoriesca durante la manovra di rovesciamento.

► **Gril à bifteck tournant breveté pour cheminées d'intérieur et barbecues d'extérieur.**

Il a été réalisé avec une double grille à l'intérieur de laquelle on dépose les aliments à cuire.

Le mécanisme spécial à levier permet de retourner la grille facilement et de cuire les aliments des deux côtés sans faire d'effort physique et sans risquer de se brûler.

La grille est munie d'une grosse vis spéciale qui serre les deux grilles, ce qui empêche les aliments de tomber lorsqu'on les retourne.

► **Licensed turn-grill for inside fireplaces and outside barbecues.**

Carried out with two grids where the food to be cooked is placed inside.

The particular lever-mechanism permits an easy over-turning, in this way the food is cooked on both sides without any physical effort and burning risks.

It is equipped with a particular screw which, by pressing the 2 grids, prevents the food from falling during the overturning manoeuvre.

► **Kipp-Grill und Bratrost für Innenkamine und Aussengrille patentiert.**

Mit doppeltem Rost ausgeführt, in dem die Speisen festgehalten werden.

Der besondere Hebelmechanismus ermöglicht ein leichtes Kippen und beideseitiges Braten ohne körperliche Anstrengung und Verbrennungsgefahr.

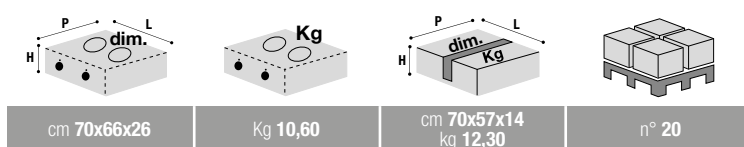

Das Gerät ist mit einer besonderen Schraube ausgestattet, die den Speisen während des Kippens, durch Andrücken der beiden Roste, nicht erlaubt, herauszufallen.

► **Parrilla rodeable patentada, para chimeneas de interno y barbacoas de externo.**

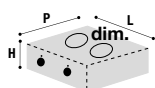

Se compone de una doble parrilla donde se colocan las comidas a cocinar.

Este particular mecanismo permite un fácil vuelco, de esta manera la comida se cocina por ambos lados sin esfuerzo físico y sin riesgo de quemaduras.

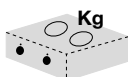

Esta parrilla es equipada con un particular tornillo que, apretando las dos parrillas, no hace que la comida fuere durante el vuelco.
